Teacher Strike Continues in Park County Re 2 School District

Because of the ongoing teacher strike, the district will not conduct classes with students tomorrow. Buses will not run and students will not be in attendance. There will not be any athletic practices or after school activities and the athletic facilities will be closed. Other school operations will continue without students as a regular workday.

We recognize the inconvenience that these recent actions have caused and we appreciate your patience and hope for a quick resolution.

Because we respect and value the rights of our staff to work in a safe and secure environment while others are exercising their right to strike, please know that local law enforcement will be present to ensure that environment.
