

With the schools being closed we have set up telehealth to provide behavioral health and medical visits remotely. Behavioral health providers are working with their patients and families to schedule telehealth or phone consults as needed. Anyone needing medical care should call our main clinic number (970-668-4040) and will go through a brief screening process to determine if an in person (in Summit) or telehealth visit is appropriate based on symptoms. Telehealth will likely be the easiest option for Park County patients.

Please let me know if you have any questions or there is any other way we can support students, staff and families during this time.

Thank you!

Jenna Worthen
School Based Health Center Director
