

Starting out with about 130 students, smooth start to the school year. Same working on school and classroom culture for the good of all students. All of the activities have kicked off and we have about half of the students involved in athletic competition of some kind. We will start MAP testing after Labor Day, that will give a marker for growth in the spring. Hopefully students will take it seriously and do their best on the test. We had some students work on the Alma Riverwalk over the summer and they did a fantastic job on the trail. Go visit!!

New Teacher at both the middle and high schools:

Lennie Doyle - Math

Jon Thompson - Band/STEAM

Ali Springer - Art
