

Family Resources

The areas served by the Fairplay schools are rural and therefore, we do not have as many services available to our families and students as you would find in larger towns or cities. We do however, have some, and would like to connect you to those that do exist. If your family needs help with any of the following, please mark what you need so we can try to help. We cannot guarantee that all needs will be met, but we will do our best. Please fill one out for each child and return to school.

Student Name _____ Teacher _____
